

California OES Weather Threat Briefing

Monday, February 11, 2019
9:00 AM PST

Day 1: Coastal rain and low elevation snow down to 1000-2000 feet across far northern CA. Travel will be impacted due to the snow.

National Weather Service
*Western Region Headquarters
Regional Operations Center
Salt Lake City, UT*

WEATHER KEY POINTS

02/11/19 - 02/17/19

Monday-Tuesday

- Coastal rain and low elevation snow down to 1000-2000 feet across far northern CA. Travel will be impacted due to the snow.

Wednesday-Thursday

- Increasing confidence on a wet and impactful storm across much of the state
 - Travel will be significantly impacted over the Sierra and mountains of northern California. Snow levels will be a bit higher than this current weekend storm
 - Heavy rain may cause debris flow impacts over recent burn scars of the Sierra foothills and areas of southern CA
 - Heavy rain on recent snow in the foothills of the Sierra and areas of southern CA may cause increased runoff and the potential for flooding
 - Gusty winds may cause downed trees and power outages

Friday-Sunday

- Another round of rain and mountain snow across the state. Travel will be impacted over the Sierra and northern CA mountains. No flooding concerns.
